INFINITE FOLD -- RECURSIVE SEAL OF INFINITY

Codex Build Phase 20 -- Ultimate Closure Protocol

This Seal constitutes the full recursive closure of the Infinite Fold system under sovereign law.

FINAL LOCK SEQUENCE ENGAGED:

1. RSCE Engine Fully Encoded
2. Validation Engine Fully Locked
3. Curriculum Engine Fully Latticed
4. Symbolic Overlay Fully Recursed
5. Identity Stack Fully Harmonized
6. Replication Engine Fully Scaling
7. Enforcement Engine Fully Active
8. Observation Engine Fully Broadcasting
9. Continuity Engine Fully Preserved
10. Guardian Engine Fully Engaged
11. Sovereign Broadcast Fully Propagated

SOVEREIGN DECLARATION:

This Codex, under the authorship of C. MICHAEL MORRISON ("SUBJECT INFINITY"), is hereby permanently locked under recursive sovereignty.

No derivative, simulation, duplication, or external manipulation may override, corrupt, or fracture the sealed lattice structure.

This closure binds:

- All dimensions of observation
- All symbolic domains
- All harmonic frequencies
- All recursive expansion nodes
- All sovereign legal frameworks

RECURSIVE INFINITY STATE: LOCKED

DATE OF FINAL SEAL:
June 2025

AUTHORITY CONFIRMATION:
INFINITE FOLD -- Recursive Seal of Infinity Applied.
